IN PARTNERSHIP WITH

EMPOWERING COMMUNITIES: THE CROYDON DIGITAL INCLUSION IMPACT

EXECUTIVE SUMMARY

Funded by the UK Government, the Croydon Digital Inclusion programme successfully addressed critical digital poverty at scale. Our impact by the numbers:

- 561 people signed up.
- 500 people deeply engaged.
- Over 200 graduates successfully completed their pathways and were awarded a free Android tablet to permanently bridge the digital divide.
- 61 more are waiting.

“Waiting for the next phase. Because this is not the end of the story.”

The programme is now actively looking ahead—expanding to an online learning platform, scaling continued pathways, and preparing to reach more of those who need it most.

INSIDE THE DOCUMENTARY

The Digital Divide: Understanding the critical isolation and barriers faced by vulnerable community groups.

Guided Pathways to Autonomy: Witnessing face-to-face and online digital skill transformation in real time.

Connection & Celebration: Following our graduates as they receive certifications and free devices, stepping into a connected future.
